

SupaShade Plus

SupaShade Plus provides a combination of strength, UV sun protection and durability for tension structures and shade sails. Manufactured to the highest industry standards, SupaShade Plus is designed to suit all weather conditions, from extreme wind and rain to soaring heat and humidity.

Mass:	370 gsm (nominal)
Roll Widths:	3.66m (12')
Roll Length:	50 m (54½ yds)
UV Block:	Up to 94%
Warranty:	10 year UV*
Applications:	Medium to large commercial and residential tension structures

Colours:

SCA-220

SCA-220 is a light-duty commercial grade knitted shade cloth. It's ideal for smaller shade sails, tension structures and canopies in both domestic and commercial environments.

Mass:	220 gsm (nominal)
Roll Widths:	3 m (9'10")
Roll Length:	40 m (43¾ yds)
UV Block:	Up to 97.4%
Warranty:	10 year UV*
Applications:	Small commercial and residential tension structures

Colours:

Stylish fabrics to enhance **outdoor design**

Designed, engineered and manufactured by the world leader in knitted shadecloth technologies, the Synthesis range of architectural fabrics offers absolute freedom in tension structure design.

For over twenty years Gale Pacific fabrics have enhanced outdoor areas, providing superior protection for people, plants and places from the sun's harmful UV rays.

Synthesis architectural fabrics perform in all weather extremes, the fabric won't deteriorate or fray, and the high-quality lock-stitch construction provides for long-lasting performance, superior UV protection and unmatched strength.

Aspire

Aspire can be confidently specified for award-winning architectural applications. It features the optimum balance between strength, durability and UV block, and is designed to withstand virtually any weather extreme.

Manufactured using 100% monofilament yarn, Aspire is specifically engineered for long-term, heavy-duty applications, particularly large tension structures.

Mass:	390 gsm (nominal)
Roll Widths:	3m (9'10"), 6m (19'8") available on special order
Roll Length:	40 m (43¾ yds)
UV Block:	Up to 88.1%
Warranty:	10 year UV*
Applications:	Large commercial tension structures

Colours:

Commercial 95

Commercial 95 is the proven performer worldwide in an endless variety of commercial shade sails and architectural tension structures.

Commercial 95 offers the premium combination of durability with the highest levels of UV protection available on the market, blocking up to 98.8% of the sun's damaging rays.

Mass:	340 gsm (nominal)
Roll Widths:	3 m (9'10")
Roll Length:	50 m (54½ yds)
UV Block:	Up to 98.8%
Warranty:	10 year UV*
Applications:	Medium to large commercial and residential tension structures
