

Synthesis **Canvacon**

The world benchmark in
polyethylene-based polyfabrics

The proven performer

For covers, liners, tarpaulins and more

Synthesis Canvacon is the trusted name in heavy-duty polyfabrics with a heritage of proven performance for over 15 years.

While most polyfabrics will cover a handful of applications, only Canvacon is designed for an impressive range of industrial and agricultural solutions from tarpaulins, ground sheets and liners to membranes, cotton and grain module covers and more.

Base material:	UV-stabilised High Density Polyethylene
Coating:	UV-stabilised Low Density Polyethylene
Finish:	Natural
Mass 5000E:	260 gsm (7¾ oz/sq yd)
Mass 7000E:	306 gsm (9 oz/sq yd) (selected colours only)
Roll widths:	2.05 m (6'9") and 2.5 m (8'2") (selected colours only)
Roll lengths:	50 m (54½ yds) and Jumbo*
Warranty:	3 year UV** 3 year delamination**

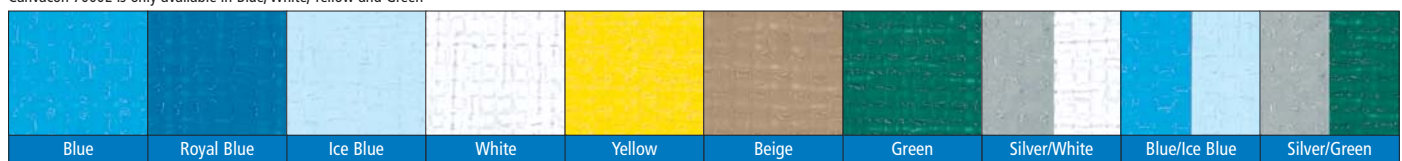

*Jumbo rolls are lengths between 1200 m and 1400 m (1312 - 1531 yds)

**Please refer to the Product Warranty and Limitation of Liability statement for full details.

Canvacon is available in two grades: 5000E for a wide range of general uses, and 7000E for heavy-duty applications. Both are manufactured from premium grade UV-stabilised polyethylene providing the highest coating adhesion of any polyfabric. So you can virtually forget about peeling along seams, and Canvacon's water proofing quality is nothing short of exceptional.

Canvacon can be hot air and hot wedge welded with weld strength comparable to the base fabric strength. This along with a superior strength-to-weight ratio and unbeatable abrasion and tear resistance make Canvacon the benchmark in its class.

Canvacon 7000E is only available in Blue, White, Yellow and Green
