

Synthesis **Safety Barriers**

Be seen and be
safe in hazardous areas

Guardex

Safeguard and secure

On-site protection with Synthesis

When public safety and security are paramount you can rely on Synthesis safety barrier fabrics.

Synthesis Guardex and Fencestop are a popular choice as temporary visual safety barriers on building sites, and for effective pedestrian control around roadwork and construction.

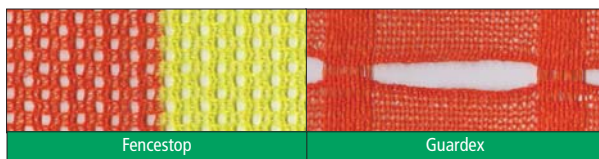

Fencestop

Guardex

The open-knit pattern of Guardex and Fencestop ensures excellent airflow to virtually eliminate the chance of fence collapse in high wind conditions. Both fabrics feature an integrated nylon cord along the top for easy installation and tension adjustment. And their bright colour maximises visual impact.

Made from a high-quality knitted UV-stabilised tape, Guardex and Fencestop will withstand prolonged exposure to weather extremes. Both fabrics are lightweight, easy to install, reusable, and they won't tear or fray if cut.

Fencestop

Guardex

	Guardex
Yarn:	UV-stabilised High Density Polyethylene
Construction:	Monofilament yarn, tape and nylon rope
Knit pattern:	Lock-stitch
Mass:	108 gsm (3 1/4 oz/sq yd)
Roll width:	0.9 m (3')
Roll length:	50 m (54 1/2 yds)

	Fencestop
Yarn:	UV-stabilised High Density Polyethylene
Construction:	Tape and nylon rope
Knit pattern:	Lock-stitch
Mass:	88 gsm (2 1/2 oz/sq yd)
Roll width:	0.9 m (3')
Roll length:	50 m (54 1/2 yds)
