

Synthesis **SupaShade Plus**

The shade fabric designed to set your
imagination free

Make the most of life outdoors

Stylish architectural fabric offering strength, durability and maximum sun protection

Used extensively in architectural tension structures to create a stylish aesthetic, Synthesis SupaShade Plus offers an excellent combination of strength, durability and UV block.

SupaShade Plus is made using a lock-stitch knit pattern with 100% monofilament. The combination of the monofilament and oval monofilament yarn contributes to increased fabric strength and enhanced UV block of up to 94%.

SupaShade Plus is easy to use during fabrication because it's annealed to maximise stability, minimise shrinking and prevent curling. It's made from strong High Density Polyethylene so it won't rot or absorb moisture and its tear and fray resistant.

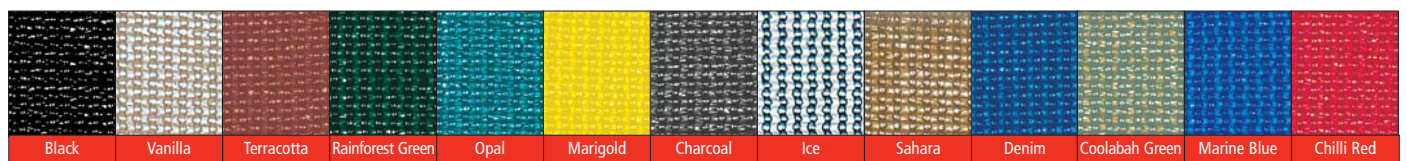

Manufactured to the highest industry standards, SupaShade Plus is designed to suit all weather conditions - from extreme wind and rain to soaring heat and humidity.

It's ideal for outdoor entertaining and living areas because the fabric 'breathes', letting cooling breezes to flow through, reducing temperatures beneath.

Base material:	UV-stabilised High Density Polyethylene
Construction:	Monofilament and oval monofilament yarn
Knit pattern:	Lock-stitch
Heat set:	Annealed to reduce shrinkage and aid in fabrication
Mass:	370 gsm (10¾ oz/sq yd)
Roll width:	3.66 m (12')
Roll length:	50 m (54½ yds)
UV block:	Up to 94%
Warranty:	10 year pro rata UV*

*Conditions apply. Please refer to the Product Warranty and Limitation of Liability statement for full details.
