

Synthesis **Versatex**

Lightweight with heavyweight
performance

Flexibility and reliability

The versatile polyfabric that lasts

Synthesis Versatex is a lightweight fabric with inbuilt lifetime flexibility. It's perfect for a wide range of light to medium duty agricultural, horticultural and industrial applications and is also ideal for use as ground and general covers and for disaster tarpaulins.

Base material:	UV-stabilised Polypropylene
Coating:	UV-stabilised Polypropylene
Finish:	Natural
Mass:	185 gsm (5½ oz/sq yd)
Roll width:	2.05 m (6'9")
Roll lengths:	50 m (54½ yds) and Jumbo*
Warranty:	18 month UV**

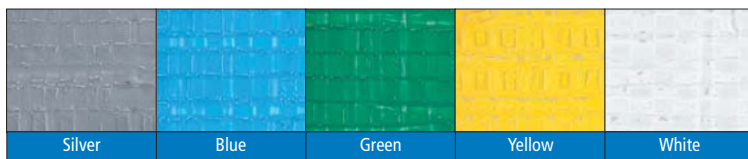

*Jumbo rolls are lengths between 1200 - 1400 m (1312 - 1531 yds)

**Please refer to the Product Warranty and Limitation of Liability statement for full details.

Made from premium UV-stabilised Polypropylene, Versatex is a woven fabric that delivers maximum dirt resistance and is extremely easy to handle and manoeuvre. Even when applied to situations where 'wind flap' and repeated flexing occur, Versatex will continually out last and out perform its rivals.

Because Versatex is made from Polypropylene, a lightweight, strong and flexible material, it delivers significant resistance to flex cracking compared with other polyfabrics.

And for peace of mind, Versatex comes with an 18 month UV warranty, making it an economical solution for any temporary coverage application.
